

# STEVE FAMBRO

FOUNDER & CEO  
FAMGRO FARMS

Hello. My name is Steve.

I am passionate about efficiency.

But first, let's talk about my marriage.

=

We turned to organic to have a baby,  
and she started a revolution.

**Our Mission:**  
**To Make Better-Than-Organic Food**  
**Local, Sustainable & Affordable to All**

We solve food security regardless of local climate, space or economy.

In one unit, we grow 1/4 hectare of land,  
using just 10% of the water &  
no pesticides or herbicides

We are proving our technology in markets throughout Southern CA.

***FAMGRO PUTS ON DEMAND  
FARMING HERE***

***HERE***

***OR HERE***

*In just the 5 halls of the ADNEC*

*Famgro Farms could produce 700,000 servings of fresh, leafy greens per day.*

*We would save **1 Billion** liters of water per year and...*

*Prevent **1 Million** liters of pesticides and herbicides from ever being used*

WELCOME

**TO A REVOLUTION**
